After supplier login:

supplier dashboard

product page

The sketch depicts a web interface for a supplier dashboard. At the top left is a 'logo' placeholder. To its right, a welcome message 'Welcome, Supplier's Name.' is displayed, followed by a 'profile' button. Below the header, there is a 'search' input field and an 'Add Product' button. The main content area is divided into two tabs: 'Products' (active) and 'orders'. Under the 'Products' tab, there are three radio buttons for filtering: 'all' (selected), 'approved', and 'pending'. A list of three product entries follows. Each entry consists of a 'product name' field, a status button (green for 'approved', red for 'pending'), and a trash icon. An arrow from the text 'supplier dashboard' points down to the top of the dashboard sketch.
